

JULIEN ESTERBET

COMPUTER SCIENCE STUDENT

I am a 23 year old computer science student and I am currently looking for a master's degree. I am passionate about blockchain technology and would really love to find a master's degree in this field. This is why Fintech course of your school is particularly interesting me.

Certificates

Driving license B1 - 2017

fundamentals of digital marketing

Languages

English (CLES B2)	HTML
Spanish	CSS
JavaScript	SQL
Java	C++

AREAS OF EXPERTISE

- I have been working on different types of projects during my studies, I have learned several programming and coding languages, mainly Java, and I have basics in JavaScript, Scala, C++, CSS, HTML, SQL, Solidity.
- I also have notions of microeconomics, macroeconomics, accounting, budgetary control and even management, which I was able to acquire within my bachelor's degree but also thanks to many readings and personal experiences.
- I spent a full year in England, so I have quite a good practice of English.
